Active buzzer

DO | PICO BLOCKS | SOUND

What does it do?

An active buzzer makes one built-in tone. Switch it on and off for warning beeps or rhythms; its pitch stays the same.

Recognise it: check the packet for **active** or **built-in oscillator**. Shape, stickers and + marks do not prove the type.

Use a labelled **3.3 V GPIO-compatible** buzzer.

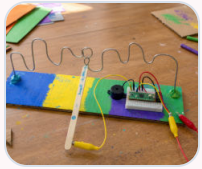

Uses

Smoke alarm

One warning tone is enough; no changing notes needed.

DETECT Measure smoke level → **DECIDE** Is smoke above the limit? → **DO** Repeat one warning tone

Buzz wire game

Choose active: one fixed buzz clearly signals failure.

DETECT Loop touches wire → **DECIDE** Is this the third strike? → **DO** Buzz at one pitch

+ leg
Marked +, to GPIO

– leg
Other leg, to GND

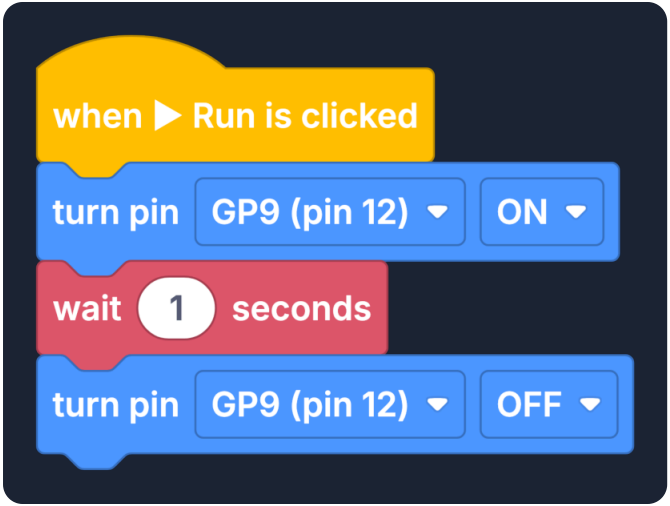

Vent
Sound comes out

Raspberry Pi Foundation

Blocks

MicroLab

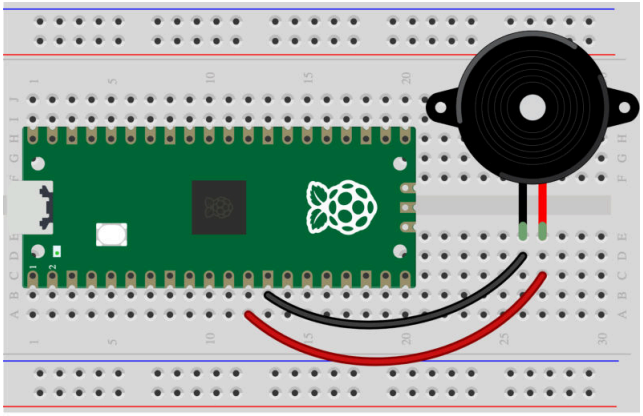

getmicrolab.com

It beeps for one second. Change the wait to make the beep longer.

Wiring

PICO

GP9 (pin 12) → **+** buzzer **−** → **GND** (pin 13)
